SUMMARY

Full-stack developer with 5 years of experience who designs what he builds. I have shipped SaaS platforms, company websites and online stores with real payments, using React, Next.js, TypeScript, Node.js and PostgreSQL, plus AI products with multi-provider fallback. Led a frontend team of 3 at INNO, founded SIMA Studio, and delivered 7 paid client builds.

SKILLS

Frontend: TypeScript, JavaScript, React, Next.js, Tailwind CSS, Zustand, GSAP, Framer Motion, Three.js, Canvas, Accessibility, i18n / RTL
Backend: Node.js, Express, REST APIs, PostgreSQL, Prisma, Supabase, MongoDB, Zod, NextAuth, Clerk, JWT, OAuth
AI: Gemini, Groq, LLM integration, prompt engineering, structured output, streaming, multi-provider fallback
Tools: Git, GitHub, Vercel, Figma, CI/CD, PayPal, ClickPay, Resend, S3, Claude Code, Cursor

EXPERIENCE

Founder at SIMA Studio Jan 2026 – Present
Riyadh, Saudi Arabia (Hybrid)

- Founded a design and development studio for websites, online stores and 3D product experiences.
- Delivered MERIT, a fashion store with a virtual fitting room where the model wears the piece.
- Delivered NASAQ: a new visual identity, a 3D garment built from a real sewing pattern, and a configurator that feeds the quote request.
- Built the studio's bilingual site with case studies and published pricing, plus a cookieless analytics and lead pipeline on Postgres.
- Produced concept projects (LIWAN, NOBLE Immersive, Rashfa) in real-time 3D and scroll-driven storytelling.

INNO Oct 2025 – Sep 2026
Riyadh, Saudi Arabia (Hybrid, Full-time)

Frontend Lead Feb 2026 – Sep 2026

- Led a frontend team of 3: code standards, reviews and a shared component architecture across 15+ screens.
- Rebuilt the bilingual company site in Next.js 16, React 19 and Tailwind v4, cutting runtime dependencies by 60%.
- Built a CSS-only design system with 22 custom animations and seven SVG scenes, with no animation library.
- Engineered full right-to-left architecture: logical properties, bidirectional text, typed bilingual content.

Frontend Developer Oct 2025 – Feb 2026

- Built websites and web products for INNO's clients in Next.js, React and TypeScript, from first screens to launch.

Frontend Developer at OnlyFounders (Founders Hub Network) Jun 2025 – Nov 2025
Remote, Contract

- Built the frontend for a Web3 fundraising MVP with real-time on-chain data and multi-wallet support.
- Built wallet switching, transaction signing and gas estimation in TypeScript and Zustand, with no reloads.

Freelance Full-Stack Developer 2024 – Present
Remote, 7 paid client builds, case studies at murhaf.site

- **Omdah:** portfolio and CMS for a video studio, with presigned video uploads and a Range-request proxy.
- **Snaya:** marketing site for a talent agency, with a custom motion system built with no animation library.
- **Etar:** online store with ClickPay checkout, order tracking, a 16-page admin and an Express and Prisma API.
- **Alpha Factory:** production platform with roles, live boards, PayPal invoicing and Telegram and WhatsApp alerts.
- **IEDAR:** corporate site for an architecture studio, with RTL layout, parallax and Framer Motion animation.

PROJECTS

Craftly AI CV generator

github.com/MorhafGhziel/ai-cv-generator

- Tailors a CV to any job post and exports a print-ready PDF, with a Gemini and Groq layer that fails over automatically and Zod-validated output.

Archy Natural language to database schema

github.com/MorhafGhziel/devflow-ai

- Turns one sentence into a live ER diagram on a hand-built canvas, then generates Prisma, TypeScript and SQL.

Lumen Docs and infinite canvas workspace

github.com/MorhafGhziel/Lumen

- Block-based documents and an infinite canvas in one workspace, with a streaming AI sidebar and a custom editor with 17 block types.

LANGUAGES

Arabic (native), English (professional)
